SUMMARY

A dedicated front-end developer that specializes in creating responsive, user-friendly web applications. Strong knowledge of HTML, CSS, JavaScript, and React, with a focus on developing high-performance, seamless interfaces. Capable of transforming design thoughts into clean, maintainable code while guaranteeing optimal user experiences across platforms and devices. Passionate about remaining current with industry developments and always honing my technical skills.

SKILLS

- **Front-end Development:** HTML5, CSS3, JavaScript (ES6+), React, Tailwind CSS, Bootstrap
 - **Frameworks and Tools:** React Js, Next Js, Redux, Webpack, Git, npm
 - **Responsive Web Design:** Media Queries, Flexbox, Grid
 - **API Integration:** RESTful APIs, Axios
 - **Version Control:** Git, GitHub, GitLab
 - **Debugging & Testing:** Chrome DevTools, Jest
 - **Design Implementation:** Figma, Adobe XD
 - **Deployment:** Netlify, Vercel
-

EXPERIENCES

Graphics and UI/UX Designer

Trace Media LTD – Ibadan, Nigeria | 08/2021 – 12/2021

- Developed graphics, logos and layouts for product illustrations, company logos, and websites.
- Managed multiple projects simultaneously while meeting tight deadlines.
- Defined user experience goals and objectives based on project requirements.
- Created wireframes, user flows, prototypes and mockups to visualize design concepts.
- Worked closely with developers throughout the software development life cycle.

Front-end Developer (Intern)

Procue Brand – Ibadan, Nigeria | 07/2023 – 11/2023

- Created and maintained responsive websites with HTML, CSS and JavaScript, ensuring cross-browser compatibility and optimal performance.
- Collaborated with UI/UX designers to convert wireframes and prototypes into working code.
- Improved website performance by employing lazy loading and image optimization strategies.
- Contributed to the transfer of legacy code to modern web standards, resulting in improved maintainability and scaling.

Front-end Developer

Adept Engineering Solutions, LLC – (Remote), USA | 01/2025 – 03/2025

- Built and maintained user-friendly, responsive interfaces using Next-Js and Shadcn-Ui
- Collaborated with UX/UI designers to translate wireframes and mockups into fully functional features.
- Integrated RESTful APIs and handled asynchronous data fetching both on the Server and the Client side.
- Ensured cross-browser compatibility and mobile responsiveness for a seamless user experience across devices.
- Utilized GitHub for source code management and team collaboration.

EDUCATION

- **Bachelor of Technology** – Computer Engineering
 - **Class of Degree** – Second Class (Upper Division)
 - **University** - Ladoke Akintola University of Technology, Ogbomoso, Nigeria
 - **Graduation Date** - *Graduated* August 2023
-

PROJECTS

Disney and Hulu Clone

- Using React and Typescript, I created a fully responsive movie platform that integrates with the TMDB API to display the most recent and trending movies and episodes.
- Improved site performance by 35%, including faster page load times.
- Using Tailwind CSS, I created intuitive user interfaces and enhanced usability with interactive elements.

Firebase Chat Application

- Created a real-time chat application with React for the front end and Firebase for the back end, which included Firestore for data storage and Firebase Authentication for user login and signup.
- Real-time messaging was enabled with Firebase Firestore, allowing users to send and receive messages quickly.

Ecommerce Web Application

- Created a website that requests data from an online API and displays the data as products for an e-commerce store.
 - Included a filter method which allows the user to filter and display different products based on user search input, categories and product color.
-

CERTIFICATIONS

- Second Class (Upper Division) in Computer Engineering
 - Certified Javascript Developer
 - Certified Virtual Assistant
